1. **Name, address of proponent:** Mr. Jaffar Ali Khan for Pak International Gypsum Bannu Road Jatta Ismail Khel Chowk District Karak Tel # 0922-522242
2. **Description of project.** The Proposed Factory is situated at Jata Ismail Khel Bannu Road District Karak and the total area of the factory is 5 Kanal.
3. **Location of project.** The Proposed Factory is situated at Jata Ismail Khel Bannu Road District Karak.
4. **Date of filing of IEE.** 09-06-2008  
(Refer: EPA/Diary # 1391)
5. After a careful review, the Environmental Protection Agency, Govt. of NWFP has decided to accord conditional approval of the Initial Environmental Examination for the Pak International Gypsum, District Karak in line with the guidelines issued by Pak. EPA and IEE/EIA Regulations, 2000 subject to the following terms & conditions:-
  - a) The proponent will adopt all pre-cautionary & mitigatory measures identified in IEE report as well as any un- anticipated impacts during the construction and operation phase of project.
  - b) The proponent will install factory in the area of 5 kanal. In the factory there will be one hall whose area will about 90 x 45 feet and height 20 feet.
  - c) Dust control system should be made which have a special exhaust to suck all the dust and collected in dust control rooms having a size 50 x 15 feet and height 20 feet. They would always be in working condition.
  - d) During stone crushing operate machine at low speed to prevent dust as well as noise pollution. During stone crushing water should be sprinkled on stone to minimize noise and dust pollution.
  - e) During calcinations, pressure of the gas should be reduced, also rotate kettles at low speed to prevent dust and noise pollution.
  - f) Kept grinding machine at low speed to prevent dust pollution.
  - g) Use fabrics (bag house) filter or electrostatic precipitator.
  - h) Health and safety measures should be provided to the staff. i.e first aid, gloves, dust mask, and rubber boots,

- i) The factory is located at a distance of 700 m away from the residential area, however forest trees should be planted inside the premises of the factory along the boundary walls for the control of dust movement through wind.
6. The proponent shall be liable for compliance of section 13, 14 & 18 of IEE/EIA Regulations 2000, which enunciate the conditions for approval, confirmation of compliance, entry, inspection and monitoring of the proposed project.
7. This approval does not absolve the proponent of duty to obtain any other approval or clearance that may be required under any other law in force.
8. In exercise of the power under Section 12 of Pakistan Environmental Protection Act, 1997, the undersigned is pleased to approve the IEE report of the project with above mentioned terms & conditions
