Subject: MITIGATION MEASURES FOR IMPROVEMENT OF ENVIRONMENT.

Reference to the above-cited subject and in response to an application No. 5208257 dated: 30/07/2019, an official of this Agency visited your site for the steel workshop. As per EIA/IEE rules regulation 2000 steel works (manufacturing of steel doors, windows, cutting of steel sheets and different types of steel pans) does not require approval, however in light of visit report dated: 07/08/2019, you are directed to adopt following mitigation measures for betterment of environment:

1. Designate a specific place for waste/scrape and do not dump outside the boundary wall.
2. Install noise proof system to bring noise levels within NEQS limits.
3. Keep the main gates of the workshop closed during operations.
4. Fast growing species of plants like poplars and bottle brush are suggested to be planted along the boundary/backside wall or in available spaces in the unit.
5. Provide proper Health and safety equipments (air plugs etc) to the labors of the unit.
6. In case of any extension in the unit or change of product, inform this Agency before commencement of any activity.
7. These mitigation measures are for the site located at GIS coordinates N 34.633793, E 072.006951

Furthermore, this office will carry out routine monitoring to check the compliance of above mentioned mitigation measures and reserve the right to initiate legal action in case of non-compliance under the provision of Khyber Pakhtunkhwa Environmental Protection Act, 2014.
