SCHEDULE-VII
DECISION ON EIA

1. **Name, address of proponent:** Mr. Nauman Daud Khan,
Proprietor, Nomee Steel Mills,
Industries steel rerolling mill,
Plot No. 7/1, Phase-IV, Industrial
Estate, District Haripur,
Tel: +92(995)617350
2. **Description of project.** Nomee Industries Steel Re-Rolling
Mills is intending to increase its
capacity and also continue its
technological advancement by
installing a new 10 tons capacity
furnace at the open space which was
previously used for re-rolling mill. The
proponent/owner now wants to
install a new induction furnace within
the premises of their existing mill.
The available area for the said
furnace is 20130 sq. ft/ 04 Kanals.
The proponent intends to install an
induction furnace to manufacture
iron steel billets at already existing
open space at the rerolling mill with
36000 MT/Annum.
3. **Location of project.** Plot # 28, Phase IV,
Industrial Estate Hattar,
District Haripur.
4. **Date of filing of EIA.** 04/01/2022 (Diary No. 2002)
5. **GPS Coordinates and Map.**

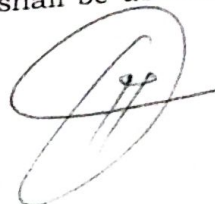

S#	Lat	Long	S#	Lat	Long
1	33.8855	72.8409	7	33.888	72.8402
2	33.8859	72.8403	8	33.8877	72.8415
3	33.8861	72.8397	9	33.8875	72.8418
4	33.8862	72.8393	10	33.8868	72.8414
5	33.8867	72.8396	11	33.8868	72.8416
6	33.887	72.8398	12	33.8864	72.8413

6. After careful review, the Environmental Protection Agency, Government of Khyber Pakhtunkhwa has decided to accord approval on the Environmental Impact Assessment (EIA) Report of **"Nomee Industries Steel Re-Rolling Mills (Pvt) Ltd, Induction Furnace of 10 ton, Plot # 28, Phase IV, Industrial Estate Hattar, District Haripur."** according to the Khyber Pakhtunkhwa Environmental Protection Act, 2014, and the Khyber Pakhtunkhwa Environmental Assessment Rules, 2021 subject to the following terms and conditions:-

- a) The proponent shall adopt all precautionary and mitigation measures recommended in the EIA Report as well as replies of the proponent submitted to this Agency and any un-anticipated impacts arising during the construction and operation phase of the project.
- b) Effluents and emissions from the factory (Steel Furnaces) as well as from the generators shall be kept within the permissible limit of National Environmental Quality Standards (NEQS).

- c) A proper Type Air Pollution Control System in light of the submitted replies shall be installed on the furnaces according to the capacity to bring the stack emissions within the NEQS. The pollution control system shall be properly maintained and operational. However, in case pollution control system is not complying with the NEQS, the same may be changed to the updated technology or as recommended by this Agency.
- d) Proper record of broken bag house filter shall be maintained and the same shall be disposed of in an environmental friendly manner. Furthermore, when the pollution control system is out of order, the unit shall not be operated.
- e) As committed in replies submitted to this Agency, a dog house hood system of appropriate size shall be installed over the furnace to control the smoke produced during casting.
- f) The proponent shall install online Continuous Emission Monitoring System (CEMS) at the factory for real time stack emission analysis of CO_x, NO_x, SO_x and Particulate Matter emission analysis and access shall be provided to EPA. Moreover, stake shall be provided at the kiln.
- g) Emissions controls measures shall be adopted in case of repair/maintenance of the pollution control system of the unit.
- h) The water used in the process shall be re-used/recycled to maximum possible times. The effluent (if any) shall be properly treated before final discharge in compliance of the NEQS.
- i) Water metering equipment at all water extracting sources and flow meters shall be installed for keeping in check the water usage.
- j) Proper boundary wall shall be constructed around the factory.
- k) The ground/surface water and soil shall be protected from all kinds of pollutions/contaminations.
- l) Sufficient mitigations shall be adopted for the control of noise pollution.
- m) Proper confined area shall be allocated to the scrape/raw materials and the final product.
- n) Scrape of good quality shall be used and colored metal scrape shall be avoided.

- Proper parking area shall be identified for the vehicles inside the factory premises. And traffic congestion shall be avoided.
- p) Certification of VETS for vehicular emission control shall be submitted to this Agency.
 - q) A comprehensive CSR document, keeping in view quantum of project activities, having activities with proper funds allocation shall be shared with EPA.
 - r) Mix plantation of Chinar and Pine / Deodar trees of 10 - 15 feet must be carried out along the boundary walls inside the steel mill and in front of the factory with a distance of 10 feet from plant to plant. The dead/ dry/ damaged plants if occurred must be replaced immediately /on the next day. Besides, funds shall be allocated for additional plantation during seasonal campaigns to counter the carbon emissions.
 - s) Sludge generated at refractive filling of furnace and other parts of the unit shall be properly disposed of in consultation with KPEZDMC and EPA regional directorate Abbottabad.
 - t) As committed electricity shall be used as a source of fuel.
 - u) Non-technical jobs shall be provided to the locals and preference shall be given to the locals in technical jobs. Moreover, maximum wages shall be paid to the workers as per prevailing Government rules. Employment details shall be submitted to EPA.
 - v) Personal Protective Equipments (PPEs) like Masks, Fire Proof Jackets, Gloves, Goggles, Helmets, etc. must be provided to the workers and ensure its usage during the working hours. Furthermore, other health and safety Equipments like first aid box, signboards, etc. shall be installed/maintained inside the Factory.
 - w) Updated fire extinguishing system shall be ensured within the factory premises.
 - x) The proponent shall submit quarterly compliance report of the conditions of Environmental Approval along with emissions, effluents and noise analysis reports from EPA Khyber Pakhtunkhwa certified laboratory to this Agency.
7. The proponent shall be liable for correctness and validity of the information provided by the environmental consultant.

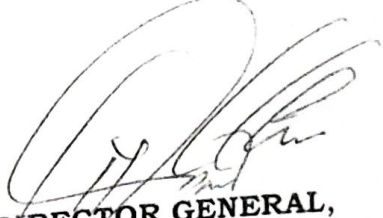

The proponent shall be liable for compliance of Rule 14, 15, 16, 18, 19 and 20 of the Khyber Pakhtunkhwa Environmental Assessment Rules, 2021 regarding approval, confirmation of compliance, entry, inspections and monitoring.

9. This approval is accorded only for the construction phase of the project (Only for the Steel Furnaces installation/construction). The proponent will obtain separate approval for operation of the steel Furnaces in accordance with Khyber Pakhtunkhwa Environmental Assessment Rules, 2021.
10. Any change in the approved project design shall be communicated to EPA, Khyber Pakhtunkhwa and shall be commenced after obtaining the approval.
11. This approval shall be treated as null and void, if all or any of the conditions mentioned above is/are not complied with:
12. This approval does not absolve the proponent of the duty to obtain any other approval or clearance that may be required under any law in force.
13. There shall be no legal case pending in the courts against the project.
14. In exercise of the power under Section 13 of the Khyber Pakhtunkhwa Environmental Protection Act, 2014, the undersigned is pleased to approve the EIA Report of **Nomee Industries Steel Re-Rolling Mills (Pvt) Ltd, Induction Furnace of 10 ton, at Plot # 28, Phase IV, Industrial Estate Hattar, District Haripur** only for the Steel Furnace with above terms and conditions mentioned.

Dated: Peshawar the 12 / 01 / 2023
