Govt. of Khyber Pakhtunkhwa

No. No.EPA/ROS/GEA/56 KW MMHPP Khwar Kalay/Shangla/280-84

Date: 21/02/2024

To,

Chief Executive/ Project Director,
Pakhtunkhwa Energy Development Organization (PEDO)
Access to clean energy Programme (ACEP), PMU MMHPP Project House No.
D13/1, Syed Jamal Uddin Afghani Road, University Town Peshawar, Khyber
Pakhtunkhwa
Contact # 091-7252099/ 0333 5031311

Subject:

**DECISION ON GENERAL ENVIRONMENTAL APPROVAL (GEA)
REPORT OF 56 KW MINI/MICRO HYDRO POWER PROJECT AT
VILLAGE KHWAR KALAY, LILOWANI, TEHSIL ALPURI, DISTRICT
SHANGLA.**

Kindly refer to the subject cited above and to enclose herewith Environmental Approval/ Decision Note on GEA Report of project titled "56 KW Mini/Micro Hydro Power Project at Village Khwar Kalay, Lilowani, Tehsil Alpuri, District Shangla." for your information and further implementation.

Moreover, Schedule-X (Copy enclosed) must be submitted to this office within one month on Stamp Paper as an undertaking for the compliance of terms and conditions as mentioned in the Environmental Approval as well as mitigation measures proposed in the General Environmental Approval (GEA) Report, please.

Director (Malakand)

Copy for information to the;

1. Deputy Commissioner, District Shangla.
2. P.A to Director General, EPA, Government of Khyber Pakhtunkhwa.
- ✓ 3. Assistant Director, EPA- Peshawar Khyber Pakhtunkhwa for uploading on EPA official website.
4. Manager (Environment Social and Gender Empowerment) MMHPPs, PEDO Peshawar.

SCHEDULE - IX
Decision on GEA

1. Name and address of the proponent:

The Project Director
Pakhtunkhwa Energy Development Organization (PEDO)
Access to clean energy Project (ACEP), PMU MMHPP
Project House No.D13/1, Syed Jamal Uddin Afghani Road,
University Town Peshawar, Khyber Pakhtunkhwa
Contact # 091-7252099

2. Description of project:

The proposed "**56 KW Mini/Micro Hydro Power Project (MMHPP)**" is proposed in the village Khwar Kalay, Lilowani, Tehsil Alpuri, District Shangla. The project, situated on the right side of the Nullah/stream in Khwar Kalay Lilowani village, sources water from this Nullah, which ultimately merges into the Indus River via Shain Khwar, Ghorband Khwar, and Khan Khwar. After power generation, the water will be released back into the same Nullah, spanning a total length of about 175 meters. This project falls under the "Construction of Mini/Micro Hydropower Project under the Access to Clean Energy Investment Programme (ACEIP)" with financial support from the **Asian Development Bank (ADB)**. The primary objective of this project is to provide electricity to off-grid areas. To achieve this, it will have a total installed capacity of 56 KW, utilizing a gross head of 19.58 meters, with a design discharge of 0.5 cumecs. To minimize environmental impact and preserve the natural flow of the river, this project is designed as a run-of-the-river system. Key components include a weir intake, spill channel, bypass channel, powerhouse with a turbine and generator, tailrace channel arrangement, allied structures for protective works, as well as surface access.

3. Location of project:

The project is located at village Khwar Kalay, Lilowani, Tehsil Alpuri, District Shangla.

GPS Coordinates and GIS Map (As per KMZ file):

Intake structure : N 34.968305°, E 72.661461°

Power House Site : N 34.966147°, E 72.660944°

4. Date of filing of GEA:

17/11/2023 (Ref. EPA, RO Swat Diary No. 4410)

5. After careful review, the Environmental Protection Agency, Regional Office, Swat Government of Khyber Pakhtunkhwa, has decided to grant construction phase Environmental Approval for the General Environmental Approval (GEA) Report of the project titled "**56 KW Mini/Micro Hydro Power Project (MMHPP) located at Khwar Kalay, Lilowani, Tehsil Alpuri, District Shangla**". This decision is in accordance with the guidelines issued by the Khyber Pakhtunkhwa Environmental Protection Act, 2014, and the Khyber Pakhtunkhwa Environmental Assessment Rules, 2021 (KPEA Rules, 2021). The approval is subject to the following terms and conditions:

- a) The proponent shall adopt and implement all precautionary and mitigatory measures identified in GEA report and commitments made in subsequent correspondences as well as any unanticipated impacts during the construction and operation phase of the project.
- b) The project falls within Schedule-IV of the KPEA Rules, 2021, which require compliance with guidelines. Once these guidelines are formulated by EPA, they shall be meticulously followed in both letter and spirit by the proponent to ensure full compliance with environmental regulations.
- c) All effluents, emissions, and noise, if any, must remain within the permissible limits defined by the National Environmental Quality Standards (NEQS).
- d) Adhere to building by-laws and site plan, considering natural and man-made disasters during project design and implementation.
- e) The proponent must comply with national and provincial Climate Change Policies, including the implementation of proposed adaptation and mitigation measures.
- f) Prevent any disturbance to the public and environment due to noise, dust, odor, sedimentation or contamination during construction and operation of the project.
- g) Personal Protective Equipments shall be provided to all workers to ensure health and safety with first aid box for emergency medical use.
- h) Fencing/ railing or equivalent protection shall be provided for settling basin, forbay, manholes, etc. to keep livestock and public access protected and away from the water ponds/channel.
- i) Ensure proper disposal of soil and excavated material at designated sites, avoiding dumping on slopes, riverbanks, or water bodies. Implement stabilization measures including engineering techniques, proper plantation, and bioengineering.
- j) Proper mitigation measures shall be formulated and implemented to avoid soil erosion, land sliding and sedimentation to nearby water bodies or other properties.
- k) The proponent shall ensure site rehabilitation, including planting ten trees for every one tree cut during construction. Cash compensation and replanting will be provided when removal is necessary, and a tree record register must be maintained for each tree cut and replanted, with all affected sites restored to their natural condition at the end of the construction period.
- l) Conventional blasting is prohibited unless approved by the relevant authority. Alternative techniques shall be preferred.
- m) River bed mining shall not be conducted without prior approval of concerned Department and this Agency.
- n) The Right of Way (RoW) of streams and natural water sheds and roads shall not be disturbed. Moreover, ensure river/stream protection from project-related pollution.
- o) Proper flood protection and management plan shall be identified and site specific mitigation measures shall be implemented during rainy flood, and flash flooding.
- p) An environmentalist along with team shall be hired for proper and effective implementation of Environmental Management Plan of GEA Report.
- q) The cultural values and social norms of the area shall be strictly followed.

- r) A minimum flow regime equivalent to 10-15% of the Mean Annual Flow (MAF), in conjunction with consideration for existing water usage within the bypass stretch, shall be released as needed to support the ecosystem and related requirements in each season and time.
- s) Water rights of the existing beneficiaries for irrigation and other purposes shall be protected.
- t) As committed by the proponent, the construction of the project shall be managed to minimize the duration of temporary electricity supply closure from the existing Mini Hydropower Project during the construction period to the minimum possible time.
- u) Provide local employment in non-technical jobs.
- v) A copy of this approval and the GEA report shall be provided to the contractor/operator at the Project site for information and implementation. Additionally, a biannual (six-month) performance/compliance report shall be submitted to this agency.
6. The proponent shall be liable for the correctness and validity of the information provided to the EPA in the GEA report and subsequent correspondences.
7. EPA will regularly visit the project site. The proponent must facilitate monitoring and comply with additional EPA conditions if required.
8. The proponent shall be liable for the compliance of Rules 14(2), 15, 18, 19, and 20 of the KPEA Rules, 2021, regarding approval, confirmation of compliance, validity, entry, inspections, and monitoring.
9. The proponent must inform the EPA office in writing about the construction/ installation start date and project operation for monitoring purposes
10. This approval is accorded only for the installation/construction phase of the project. The proponent **will also obtain approval for the operation phase** in accordance with Rule 15 of the KPEA Rules, 2021.
11. Any alteration/expansion of the approved project shall be communicated to the EPA and shall commence only after obtaining approval. Likewise, no other activities should be undertaken other than what is stipulated in the GEA Report.
12. **This approval shall be treated as null and void under Rule 21 of the KPEA Rules, 2021 mentioned above if all or any of the conditions mentioned above are not complied with.**
13. This approval shall not absolve the proponent of the duty to obtain any other approval or clearance that may be required under any law in force.
14. There shall be no pending legal cases against the project.
15. In exercise of the powers conferred upon the undersigned under Section 13 of the Khyber Pakhtunkhwa Environmental Protection Act, 2014, the undersigned is pleased to have approved the GEA Report for the construction phase of the project with the above-mentioned terms and conditions.
