SCHEDULE-VII
DECISION ON EIA

1. **Name and address of the proponent:** Mr. Khalid Khan,
Master Brothers Poultry Protein Processing Plant,
Bara Banda Industrial Estate, Nowshera.
2. **Description of project:** The project is located at Industrial Estate, Bara Banda, Nowshera. The total land area of the project site is 1 Acre (8 kanal). The production and capacity of the proposed project products is 15,000 kg per shift, cooking capacity. Natural gas and wood will be used for operational phase of proposed project. A small number of enclosed bio-filters are employed on rendering plants where it has been necessary to improve the treatment of waste water. Biofiltration plant will be installed in this unit to treat the waste water. The filter media is easily available in the market. Scrubbers will be installed in the unit to treat the emissions generated at the boiler site. Locals will be preferred in the jobs to be created under the scheme.
3. **Location of project.** Bara Banda Industrial Estate, Nowshera.
4. **Date of filing of EIA.** 01/08/2023 (Diary No. 63)
5. **GPS Coordinates and Map.**

S#	Lat	Long
1	34.0965	71.9857
2	34.0962	71.9857
3	34.0963	71.9845
4	34.0966	71.9846
5	34.0966	71.985
6	34.0965	71.9856

[Handwritten Signature]

6. After careful review, the Environmental Protection Agency, Government of Khyber Pakhtunkhwa has decided to accord approval on the Environmental Impact Assessment (EIA) Report of "M/S MASTER BROTHERS POULTRY PROTEIN PROCESSING PLANT" located at Bara Banda Industrial Estate, Nowshera, according to the Khyber Pakhtunkhwa Environmental Protection Act, 2014, and the Khyber Pakhtunkhwa Environmental Assessment Rules, 2021 subject to the following terms and conditions: -
- The proponent will adopt all precautionary and mitigatory measures identified in EIA report as well as any un-anticipated impacts during the construction and operation phase of project.
 - The identified parameters like BOD, CQD, H₂S and NH₃ etc. will be analyzed during operational phase of the project from EPA KP certified laboratory and quarterly report submission to EPA shall be ensured.
 - Poultry waste must be covered during transportation.
 - Poultry waste must not be left in open air.
 - All leakages from the cookers/machinery must be avoided by using Teflon thread.
 - Fumigants must be used inside the hall of the unit where cookers are installed and where the poultry waste is stored.
 - The proponent must not discharge untreated waste water into any surface water body. All the effluents shall be properly treated through Bio-filters to achieve NEQS compliance before final discharge.
 - For the air pollution control, the management shall comply stack emissions for NEQS and the proponent shall install scrubbing system.
 - Waste water from the scrubbing system, if any, shall also be treated for compliance of NEQS before final discharge.

- 6
- j. Condensers and thermal cracking arrangements shall be installed for control of bad smell from the cooking process.
 - k. SOPs shall be developed for collection and transportation of the waste. Details of the same shall be shared with this Agency before commencement of operational activities.
 - l. The proponent will be bound to bring emission and effluents within the permissible limits of National Environmental Quality Standard (NEQS).
 - m. Solid waste of the unit shall be properly disposed of in an environmentally friendly manner in consultation with management of the Industrial estate. The waste shall not be disposed of or burnt openly.
 - n. Health and safety equipment must be provided to the workers of the unit and shall ensure this practice during working hours.
 - o. Environmental Management Plan (EMP) must be strictly followed.
 - p. Plantation of local species should be carried out inside and outside the boundary wall of the unit. Moreover, seasonal plantation campaign shall be launched with intimation and invitation to this Agency.
 - q. For additional safety, adequate firefighting measures such as fire hydrants, fire extinguishers, smoke detectors etc. shall be installed at the site to combat emergency situation.
 - r. All vehicles, generators and other equipment shall be properly tuned and maintained in good working condition in order to minimize emission of pollutants.
 - s. Water sprinkling shall be carried out where required to reduce the public nuisance caused by the dust emissions during construction phase.
 - t. Non-technical jobs shall be provided to the locals. Preference shall also be given to the locals in technical jobs subject to the availability of eligible candidates. Details of the same shall be shared with this Agency.
 - u. Analysis reports of emissions, noise, effluents of the unit from EPA, Khyber Pakhtunkhwa certified laboratory shall be submitted to this Agency on quarterly basis.
 - v. Health & Safety sign boards/posters shall be installed in various places within the project area.
 - w. The proponent shall install water meters on all the water extraction sources for sustainable use of the resource.
 - x. As committed, CSR activities shall be launched in the area and detail of the same shall be submitted to this Agency.
 - y. Proper funds shall be allocated in the EMP for environmental improvement & awareness like celebration of environment days, seasonal plantation campaigns, monitoring of environmental concerns in the area. Activities in this regard shall be carried out in coordination with this Agency.
 - z. The management shall be bound to adopt any additional mitigation measures suggested by EPA from time to time during construction & operation of the project activities.
7. The proponent shall be liable for correctness and validity of the information provided by the environmental consultant.
 8. The proponent shall be liable for compliance of Rule 14, 15, 16, 18, 19 and 20 of the Khyber Pakhtunkhwa Environmental Assessment Rules, 2021 regarding approval, confirmation of compliance, entry, inspections and monitoring.
 9. This approval is accorded by the Agency under section-13 of the Khyber Pakhtunkhwa Environmental Protection Act, 2014, and shall be valid for commencement of construction for a period of two (02) years from the date of issuance.

- 6,
10. This approval is accorded only for the construction phase of the project. The proponent shall obtain separate approval for operation phase of the project in accordance with Khyber Pakhtunkhwa Environmental Assessment Rules, 2021.
 11. Any change/extension in the approved project design shall be communicated to EPA, Khyber Pakhtunkhwa and shall be commenced after obtaining the approval.
 12. This approval shall be treated as null and void, if all or any of the conditions mentioned above is/are not complied with:
 13. This approval does not absolve the proponent of the duty to obtain any other approval or clearance that may be required under any law in force.
 14. There shall be no legal case pending in the courts against the project.
 15. In exercise of the power under Section-13 of the Khyber Pakhtunkhwa Environmental Protection Act, 2014, the undersigned is pleased to approve the EIA Report of **"M/S MASTER BROTHERS POULTRY PROTEIN PROCESSING PLANT"** at the aforementioned location only for the construction phase with the above-mentioned terms and conditions.
