2. Description of project:

The project for which the Initial Environmental Examination (IEE) is conducted is "Welmark Pharmaceuticals, Plot# 122, Block-B, Phase-V, Industrial Estate Hattar, District Haripur" with a total area of about 04 Kanals / 0.5 Acre. Welmark pharmaceuticals is established as state of the art pharmaceutical manufacturing facility to produce a wide range of quality medication including tablets, capsules, injections, suspensions, ampoules and sachets catering to domestic and international markets. The manufacturing process involves raw material receipt, formulation, production (tablets, capsules, injections, suspensions, ampoules, sachets), quality control, packaging, sterilization, if required and final quality checks. Each step is crucial to ensure the safety, quality and efficacy of the pharmaceutical products. The average monthly production comprises Tablets (7000 packs / 100,000 tablets), Capsules (5000 packs / 60,000 capsules), Injections (7000 packs), Suspension (1000 bottles), Ampoules (2000 packs/20,000 ampoules), Sachet (1000 packs/6000 sachet) respectively. Pharmaceutical manufacturing typically requires water for cleaning and sanitization, sterilization and washing, mixing and granulation, steam generation and cooling systems for which underground water is used which is extracted through bore well using the water motor/pump. A retention pit is constructed to retain and treat waste from the system before final disposal into industrial drain. Septic tanks are
